

14th Annual

AWARDS & INSTALLATION BANQUET

*Honoring the Outstanding Concrete Projects
Of the Year 2011
And
Installation of 2012 Officers*

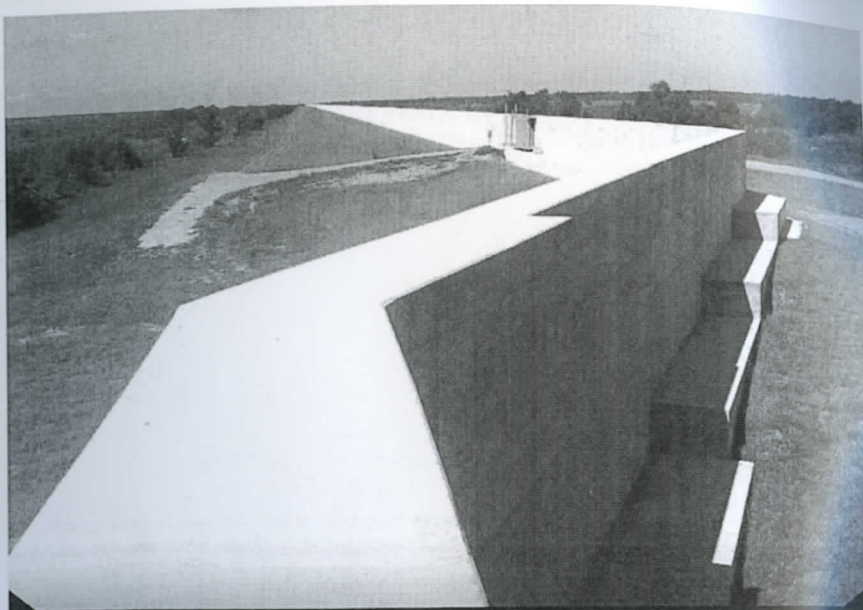

sponsored by

aci **Chapter**

Country Club

January 20, 2012

Booklet includes Membership Roster and other chapter information

GOOD CONCRETE Goes a Long Way

Cajun Constructors used over 170,000 cubic yards of concrete for its Lake Pontchartrain and Vicinity Hurricane Protection, Chalmette Loop Levee LPV 148.02 project in New Orleans. The 8.2-mile addition raises the floodwall to 100 year level protection and will help protect citizens from rising waters in the future. *As an ACI member, Cajun is proud to showcase concrete's vital role in making Louisiana citizens safer.*
