ACI President's Welcome

ACI Members and Guests:

On behalf of myself and ACI, it is a pleasure to welcome you to Toronto, ON, Canada, and the ACI Concrete Convention.

The Convention provides the industry with a professional environment where individuals from across the globe come together to share new ideas and discover innovative ways to use concrete. The Convention offers educational opportunities for personal growth, committee opportunities for technical advancement, and networking opportunities for professional enrichment. The opportunities are numerous, with over 350 committee meetings; over 50 technical sessions; an exciting student competition; and numerous networking events, culminating with the Concrete Mixer on Tuesday night. In addition, the industry exposition showcases the products and services of more than 50 companies from around the world! I urge you to make the most of your time here and attend these events.

Please join me in thanking our outstanding sponsors and exhibitors. None of this would be possible without them. Anyone who is wearing a Convention sponsor or exhibitor ribbon has played an integral role in the success of this Convention. Please be sure to thank them while at the Convention and stop by their booths to see the newest products and services on the market today.

I am honored and excited to share this week with you, and I hope you enjoy all that Toronto has to offer. Thank you for attending the Convention and for your continued involvement in ACI.

Kind regards,

Michael Paul, ACI President

Message from the Mayor

It is my pleasure to extend a warm welcome to everyone attending the American Concrete Institute's (ACI) Convention.

I am pleased that ACI, a leading global authority in industry standards, technical resources, and educational, training, and certification programs has chosen to host its convention in Toronto. It offers a great platform for concrete industry leaders and professionals from around the world to connect with each other and learn, share ideas, best practices, and insights in a welcoming environment.

As Canada's largest city and the fourth largest city in North America, Toronto is Canada's leading economic engine and a global leader in technology, finance, film, music, culture, and innovation and climate action. I hope you enjoy the beauty of the city during your time in Toronto.

On behalf of Toronto City Council, please accept my best wishes for an informative and enjoyable event.

Yours truly,

Olivia Chow, Mayor of Toronto

Session PDH Tracker

Attend the entire duration of a live session and record the codes given out during the session using the spaces below. In most cases, one contact hour is equal to one Professional Development Hour (PDH). Check with your state Board for acceptance criteria. **Please note: ACI does not track and cannot provide documentation confirming attendee participation or attendance at any ACI session held during the convention.**

**On-demand recordings of sessions are not eligible for CEUs.*

For attendance certificates:

1. Visit www.concrete.org and sign in.
2. Hover over **My ACI** and click on **My ACI CEU/PDH**.
3. Select the convention, day, and title of the session for which you are submitting session codes.
4. After successfully submitting the session codes, your certificate will be available under the session title.

If you earned a certificate for a session and want ACI to report your CEUs/PDHs to the Florida Board of Professional Engineers or AIA, e-mail your Professional Engineer's or Architecture license number to Aileen Castelli at aileen.castelli@concrete.org.
