

# REPAIR CODE PRESENTATION

This presentation introduces the ACI 562-16, “Code Requirements for Assessment, Repair, and Rehabilitation of Existing Concrete Structures and Commentary.” This is the first U.S. code produced specifically for the repair of reinforced concrete.

Topics covered in this presentation will include:

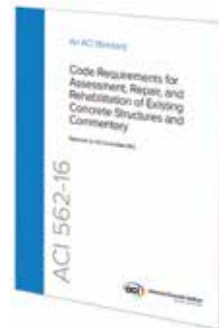

- Why a repair code is needed
- The philosophy behind ACI 562-16
- How the code promotes consistency in repair design
- Recognizing repair construction challenges
- Significance of a quality assurance program for successful repairs
- How the code can save the owner money

**ACI offers a wide range of resources and materials covering repair including:**

**MNL-3(16):** Guide to the Code for Assessment, Repair, and Rehabilitation of Existing Concrete Structures

**ACI 562-16:** Code Requirements for Assessment, Repair and Rehabilitation of Existing Concrete Structures  
(Also available: ACI 562M-16 Metric)

**On-Demand Courses Offered Through ACI University:**

- ✓ ACI 562-16 The Concrete Repair Code (English and Spanish)
- ✓ Repair and Rehabilitation (Part 1 & 2)
