

American Concrete Institute

Founded in 1904 and headquartered in Farmington Hills, MI, USA, the American Concrete Institute is a leading authority and resource worldwide for the development and distribution of consensus-based standards, technical resources, educational programs, and proven expertise for individuals and organizations involved in concrete design, construction, and materials. ACI is made up of members who share a commitment to pursuing the best use of concrete.

Always Advancing

Periodicals

ACI Materials Journal and *ACI Structural Journal* are bi-monthly technical journals. *Concrete International* is a monthly magazine on concrete.

Publications

Online and print resources include technical documents, handbooks, manuals, certification and educational publications.

ACI University

A global, online learning resource providing on-demand access to a wide range of topics in the field of concrete.

Chapters

ACI's 200+ chapters make gaining technical knowledge and networking possible.
