

On the Move

McDonald

Klein & Hoffman (K&H) appointed ACI member **Terry McDonald** as Chief Executive Officer (CEO). With 24 years of experience in the industry, including 20 years with K&H, he brings a wealth of expertise, leadership, and a deep understanding of the firm's mission and values to his new role. McDonald joined K&H in 2004, rising from a project engineer to managing the firm's structural engineering group, overseeing key projects, and contributing to the company's strategic growth as a member of the firm's Board of Directors for 8 years. Many of McDonald's projects have earned the firm awards and recognition from organizations such as the Structural Engineers Association of Illinois (SEAOI) and the International Concrete Repair Institute (ICRI). McDonald received his BS in civil engineering with a specialty in structures from Purdue University, West Lafayette, IN, USA, and is a licensed structural engineer in Illinois, USA, and a professional engineer in multiple states. As CEO, McDonald aims to expand K&H's services into emerging markets, leverage technology to improve client outcomes, and foster a culture of collaboration and innovation.

Cumins

Nicholas Cumins has been named CEO of Bentley Systems, Inc. Cumins succeeds **Greg Bentley**, the eldest of the five brothers who founded Bentley Systems, who will now be serving as Executive Chair of the Board of Directors. Cumins is the first CEO in the company's 40-year history who is not a Bentley family member, marking a significant milestone in the company's development. Before his promotion, Cumins served as Bentley Systems' Chief Operating Officer from January 2022. He joined Bentley Systems as Chief Product Officer in September 2020. Previously, he was General Manager of SAP Marketing Cloud and served as Chief Product Officer of Scytal and Senior Vice President of Product with OpenX, a programmatic advertising platform. Before OpenX, he had served in a variety of senior roles at SAP, including product management, corporate strategy, and business development.

Buildings Editor **Nadine M. Post** has retired from *Engineering News-Record (ENR)* editorial staff after a 46-year association with *ENR*. Post joined *ENR* newsletter staff in 1978 but soon switched to covering buildings for the magazine.

Post

Over the years, she was promoted to positions of increased responsibility that allowed her to write and supervise coverage of, among many other projects, the redevelopment of the World Trade Center in New York, NY, USA, tall buildings such as the Burj Khalifa in Dubai, United Arab Emirates, and unique structures such as Walt Disney Concert Hall in Los Angeles, CA, USA, and Bullitt Center and Rainier Square Tower in Seattle, WA, USA. While Post brought these and other notable projects to life in colorful prose in *ENR* and on ENR.com, she also elevated important innovations in design, construction processes, and project delivery to the attention of *ENR*'s readers. Post focused her coverage on sustainability, which included attention to building codes and standards. She also wrote the McGraw-Hill-published book *Restoring the Statue of Liberty* (1986) for project architects Richard S. Hayden and Thierry W. Despont. Post's work has won numerous awards, and she has authored 10 *ENR* annual Award of Excellence cover stories.

Honors & Awards

Eder

The American Concrete Pavement Association (ACPA) announced **Glenn Eder** as the 2024 winner of the Hartmann-Hirschman-Egan Award. This award recognizes individuals or organizations for unparalleled commitment, dedication, participation, and leadership in the concrete pavement community. Eder retired from infrastructure product supplier American Highway in 2022. From 1986 to 1998, he owned and was President of Contractors Steel & Accessories, Inc. After his company was purchased by ERSCO Corporation in 1998, he served as Vice President and Division Manager of Paving Supplies until 2007. Eder went on to work for another load transfer manufacturer, Block Heavy & Highway Products Co., from 2007 to 2011, when that company was acquired by Dayton Superior Corporation. Eder made his name within the Dayton Superior organization from 2011 to 2015, where he served as Sales Manager of Paving Products. In 2015, he transitioned from Dayton Superior to JC/Simplex Supply & Manufacturing, growing its business as the Vice President of Marketing and Business Development until the company was purchased by American Highway in December 2020. In 2021, Eder took over the role of Vice President of Technical Sales until his retirement.
